

Mei 2021 Update Nepal in Corona tijd.

Rond mei 2021 kregen we een update van de partnerorganisatie over de stand van zaken in Nepal ten tijde van corona. Vele activiteiten van de projecten lagen stil. Hieronder een bericht van de oprichter van ASSN aan ons.

“Subject: Nepal faces second lockdown and crisis

Dear Ruchama,

Greetings and love from Nepal. How are you? and everyone there. I hope and believe with the grace of our God you all have been able to win over the Covid caused misery slowly and effectively. Hope you all are doing a lot better than before regarding the effect caused by covid 19.

With thankful heart I have written this mail to you for all you have done throughout these many years of our friendship.

The situation of Nepal at this moment is that it has been hit hard with this second phase of Corona virus and it has thus made all of us worried so have I written this mail to you.

Nepal has been very highly affected this year by the corona virus that is supposed to have entered Nepal from its neighbor country India as around 5,00,000 people this week only were reported entering Nepal through open borders of India - Nepal. The Terai region of Nepal has been mostly affected by Covid-19. An average of 8000-9000 people are every day tested Covid positive at the moment which has concluded to about 72,561 active cases, and the number of deaths to 3,229 in about a week of time. Which comparatively is a huge rise in a country like Nepal which is geographically and population wise a small country and the ratio to the current situation is considered very dangerous as the health facility provided by the Nepal government is very negligible and insufficient which can be understood well by a example: Nepal has a total number of 1595 ICU and 840 ventilators whereas the total number of positive cases every day has reached around 9000 each day. Which does not seem to slow down relating to the observation of the current rise in spread of this virus and the service provided by the health department of Nepal.

Dear sister this has as a result caused the lockdown to extend more and we are not sure what kind of difficulties we all would be facing in the days coming. We have been hearing a lot of suicidal cases and death news nearby and all over the country as people are hopeless through this second phase of lockdown. So at the moment i wanted to know your opinion on this matter if we would be able to do something as a covid relief project and help the people in this difficult time.

i also would like you to know that we are continuously praying for you all and you all are in our heart.

much love and regards,

Ps.Yubaraj B.K

Thank You.”

N.a.v. overleg met Pastor Yubaraj en het bestuur zijn we tot het besluit gekomen een Covid Relief Fund op te richten. Mensen kunnen specifiek daarvoor een donatie doen. o.v.v. Covid relief fund. Dit geld komt dan ten goede aan de wezen die zijn ontstaan door corona sterfte van de ouders en voor eerste levensbehoeften van Covid-19 slachtoffers.
