## Story of Success

Case study of Maya K.C.

I am Maya K.C. Now I am 19 years old. I

live in Butwal Sub-Metropolitan City ward no-6, Majuwa which is a squatter area of Butwal, Located in Province no-5, Nepal with my parent. I am belongs into poorer family. I my family we are seven persons, in which my father, mother, three brothers and two sisters. Due to the weak economic condition and being illiterate my father is working as porter. He loads and unloads goods in lorry in the market but the wage of my father is very little which is inadequate for our family livelihood because in the town we must buy everything and the cost of the things is very high. Therefore I and my mother also work in the construction site as wage labour. Due to the poverty I did not get chance to go to school to study but the labour task was very heavy and hard for me and I wanted to learn some skill so that I could earn money using the skill being self-employment but we could not pay the money to take skill development

training because it would be more expensive. In the meantime, someone told me that the ASSN organization is organizing a skill development training in free for the poor and marginalized people and I went in the office of the ASSN and there I met a madam in the office and I registered my name in the list of participation. And there I learnt sewing and cutting training there until six months. When the training was finished and in the training closing ceremony the sir of the ASSN said us about the micro credit programme of the organization and I requested to him for the micro credit and they believed to me and gave me the opportunity and then with the money I started a tailoring business. After that I started to earn Rs. 6000 monthly at initial time later the income was increased and now I earn Rs. 15000 monthly which is sufficient for our family. So, I am grateful with the programme of ASSN and I would like to give very much thanks to the ASSN and the donors.
